Re: Applications for Change under Ground Water Certificate No.'s G3-24732C, G3-25251C,
4486-A, 3514-A and Surface Water No. 7730

Dear Ms. Hassler:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason(s) below:

According to your request, you need additional time to complete the project due to health reasons. In addition, the passing of your husband has hindered you from completing the project in the time allotted. It appears that minimal progress has been made on this project. Be advised that the State Water Code requires that your project be pursued with diligence. It is important that construction of your project be completed and water be put to use within the time prescribed in the authorization. Your requested extension is a reasonable period of time. We will grant you an additional five years to put water to full beneficial use.

The new deadline to submit your *Proof of Appropriation of Water* is **July 1, 2017**.

Water use data shall be recorded weekly and maintained by the property owner for a minimum of five years. The maximum rate of diversion/withdrawal and the annual total volume shall be submitted to the Department of Ecology by January 31st of each calendar year.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Recorded water use data shall be submitted via the Internet. To set up an Internet reporting account, contact the Eastern Regional Office. If you do not have Internet access, you can still submit hard copies by contacting the Eastern Regional Office for forms to submit your water use data.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

Only applies to Water Right 7730

The intake(s) must be screened in accordance with Department of Fish and Wildlife screening criteria (pursuant to RCW 77.57.010, RCW 77.57.070, and RCW 77.57.040). Contact the Department of Fish and Wildlife, 600 Capitol Way N, Olympia, WA 98501-1091. Attention: Habitat Program, Phone: (360) 902-2534 if you have questions about screening criteria.
